FEBRUARY 2004

The Company

Based in Hong Kong and with a branch office in Geneva, Switzerland, SeaQuest Marine Project Management Limited is serving the shipping industry on a worldwide basis. We provide quality Consulting Services to Ship Owners and Ship Managers for their shipbuilding, conversion and repair projects.

Our key personnel are professionally qualified Naval Architects and Engineers who possess extensive work experience within the shipping world.

The founders of the Company have formed a permanent team that has widespread expertise in project management, particularly in the Far East. The team members are fully conversant with Korean, Japanese and Chinese shipyard operations.

Ours Goals

SeaQuest Marine Project Management Limited will ensure that the ships are delivered in a superior condition, enabling them to operate effectively and efficiently and with minimal downtime in operation.

We believe that by implementing our rigorous quality and safety policies, ships can be built to a very high standard anywhere in the world.

Our resolute approach to project management is outlined by IMO MSC 77/2/6.

This document refers to an INTERTANKO paper with annex "Items Relating to New Building Activity which need Changes" and gives warnings to Owners to seriously consider improving the level of new building supervision.

It is our policy to offer quality services to our Clients and to achieve, through exacting management and professionalism, a strong relationship with the Client through to the successful conclusion of the venture.

Our Experience

The management of our current new construction projects includes building specification appraisal and modification, technical negotiation and plan approval.

Our office and site staff have conducted plan approval for cruise/passenger ships, FSOs, VLCCs, Suezmax tankers, product carriers, chemical carriers, container ships, LNG tankers, anchor handling tug supply vessels, harbour tugs and have new construction experience of FSOs, cruise/passenger ships, VLCCs, Suezmax tankers, product carriers, chemical carriers, container ships, double hull bulk carriers and anchor handling tug supply vessels.

Our Services

SeaQuest Marine Project Management Limited provides a wide range of services at competitive prices.

From assigning an individual specialist, to developing and managing complex shipbuilding, conversion and repair projects, the Company offers a unique engineering and commercial package tailored to suit each individual project and customer. Depending on the requirements of each customer, we can offer supervision teams comprised of expatriates or a team whose main body consists of local engineers, overseen by an expatriate Site Manager. Where necessary, we will provide refined procedures, which have been developed through years of building and operational experience. These methods are more stringent than the procedures usually implemented by the shipyards and accepted by Classification Societies and allow us to achieve a higher standard of quality.

Our Expertise

- Specification Writing
- Conceptual Ship Design
- Shipyard Specification Review
- Shipyard Reviews and Selection
- Technical Negotiations
- Contract Review
- Manufacturer Selection
- Plan Approval
- New Building Supervision
- Commissioning
- Guarantee support
- Owner Representation
- Conversion Supervision
- Repair Dry Docking Supervision
- Ship Surveys
- Procurement
- Planned Maintenance

Upon delivery of the new building to her Owners, our parent company, Portunato&C., may provide assistance for the day-by-day operations with a range of ship management services.

Support

Our Project Manager will be stationed locally for the duration of the contract.

This allows us to manage the project in the sure knowledge that full support is available for a quick and dedicated response to the projects' needs, providing a single line of responsibility. The Project Manager will be responsible for overseeing the Project's development and progress, managing the supervision team and ensuring that the work in progress is reported regularly to our offices and the Client. SeaQuest Marine Project Management Limited will prepare all the documentation for registration, oversee the issuance of the ship's statutory certification and organize any shipboard inspections required before departure.

Our Project Manager will co-ordinate the crew arrival onboard along with the initial storing for sea. SeaQuest Marine Project Management Limited will, if required, assist or implement a complete planned maintenance system.

Personnel

The core personnel of the company are highly qualified Naval Architects and Engineers with a wealth of knowledge in the technical and operational aspects of ships. Every employee is known personally to at least one of the executives of SeaQuest Marine Project Management Limited. The Company can therefore vouch unreservedly for the professional competence and personal character of all the employees.

The Company maintains strict employment criteria and rigorously enforces that standard.

The Company was formed as a unique concept to create stability within projects by bringing together individuals who are highly experienced in different areas of engineering. This consolidation of knowledge allows us to set a high standard within the industry.

Projects

Oil Tankers

	Yard	Country	No.	Year	Scope of service
160K Suezmax oil tanker	SHI	Korea	3	2002-2003	Plan approval & supervision
160K Suezmax oil tanker	SHI	Korea	3	2002-2003	Plan approval & supervision
160K Suezmax oil tanker	SHI	Korea	2	2003	Supervision (partial)
160K Suezmax oil tanker	SHI	Korea	1	2005	Plan approval & supervision
115K Aframax oil tanker	SHI	Korea	2	2004-2005	Supervision
105K Aframax oil tanker	HHI	Korea	1	2004-2005	Plan approval & supervision

Product Carrier

	Yard	Country	No.	Year	Scope of service
70K Panamax Product Carrier	HHI	Korea	1	2003	Supervision
73K Panamax Product Carrier	SHI	Korea	2	2003-2004	Plan approval & supervision
73K Panamax Product Carrier	STX	Korea	2	2004-2005	Plan approval & supervision
45K Product Carrier	STX	Korea	2	2002-2003	Plan approval & supervision
45K Product Carrier	STX	Korea	2	2002-2003	Plan approval & supervision
45K Product Carrier	STX	Korea	2	2003-2004	Plan approval & supervision
45K Product Carrier	STX	Korea	2	2005-2006	Plan approval & supervision

Chemical Carrier

	Yard	Country	No.	Year	Scope of service
Stainless Steel Chemical Carrier	CNP	Italy	1	2003-2004	Plan approval & supervision

Bulk Carrier

	Yard	Country	No.	Year	Scope of service
73K Panamax	SHI	Korea	1	2001-2002	Supervision
171K Double Hull Cape Size	HHI	Korea	1	2003-2004	Supervision
73K Double Hull Panamax	Oshima	Japan	2	2007-2008	Plan approval & supervision

Container Vessel

	Yard	Country	No.	Year	Scope of service
2500 TEU Geared Container	TNSW	Germany	2	2001-2002	Plan approval & supervision

Anchor Handling Tug Supply

	Yard	Country	No.	Year	Scope of service
16,000 BHP MOSS 424 AHSV	Havyard	Norway	1	2001-2002	Plan approval & supervision

Points of Interest

Our personnel were the Consultant Engineers for M.V. Euro Sun during plan approval and construction supervision in STX Shipyard, South Korea. This ship was chosen by the Royal Institution of Naval Architects as a Significant Ship of 2002.

Our personnel conducted the plan approval for M.V. Resolve and are currently supervising its building in STX Shipyard, South Korea. This ship is nominated for consideration by the Royal Institution of Naval Architects as a Significant Ship of 2003.

The M.T. "Okha" is a 158,000 tonnes deadweight double hull tanker and floating, storage, offloading unit built at Daewoo Heavy Industries Co. Ltd., Koje, South Korea and was the ship of the year 1999. A member of our core personnel was involved technically with the project and was the site manager for the duration of the build.

The Norwegian Star and Norwegian Dawn, 92,000 GRT cruise ships were delivered in October 2001. During the build period, two of our technical staff were employed on the project as site manager and senior coating inspector.
